

1 This listing of claims will replace all prior versions, and listings, of claims in  
2 the application.

3 **Listing of Claims**

4  
5 Claim 1 (Previously presented): A method, comprising:  
6 retrieving printing device data from component memory on a replaceable  
7 component used in a first printing device;  
8 storing the printing device data in a marketing database;  
9 associating the printing device data with the first printing device;  
10 searching the marketing database for a second printing device that meets  
11 certain search criteria associated with the printing device data; and  
12 applying a pre-determined marketing solution for the second printing  
13 device found to meet the search criteria.  
14

15 Claim 2 (Previously presented): The method as recited in claim 1,  
16 wherein the applying a pre-determined marketing solution further comprises  
17 notifying a customer that uses the second printing device of a product that is  
18 related to the customer's use of the second printing device.  
19

20 Claim 3 (Previously presented): The method as recited in claim 1,  
21 wherein the printing device data further comprises information regarding an  
22 environment of the first printing device and the search criteria includes a printing  
23 device environment criterion.  
24  
25

1 Claim 4 (Previously presented): The method as recited in claim 1,  
2 wherein the printing device data further comprises information regarding first  
3 printing device usage and the search criteria includes a first printing device usage  
4 criterion.

5  
6 Claim 5 (Previously presented): The method as recited in claim 4,  
7 wherein the search criteria further comprises a criterion that the first printing  
8 device that is used with a specific component.

9
